"Absolutely thrilled with Doodles, as a nursery communication with staff is great and excellent updates are given along with pictures throughout the day, which really brightens mine while I'm at work! My daughter has grown so much in confidence since starting here only a month ago, and I had so many reservations with having to send her to nursery, but Doodles have really made the process as easy as possible for both me and my little girl and i couldn't be more thankful"

2. Alesha March 2022

"My daughter has attended Doodles for about 5 months and she has progressed massively both socially and physically. I love receiving the daily updates on the app, and seeing what she's been up to all day! The staff are so friendly and professional and really do care about the well-being of the children. My daughter is in the Baby Room and does still sometimes get upset but I am always reassured that she is fine after some cuddles and lots of play. It really shows how much they bond with their key workers and its lovely to see as a working Mother. Recently for Mother's Day I have received a card by my daughter and a lovely gift bag of a Mother's Day breakfast. Its small personal touches like this that really make Doodles stand out and I couldn't recommend them more!

"We are over the moon that we chose doodles day nursery for our little boy he has so much fun going on walks to the park, doing lots of messy play like painting and water play outside. The staff are very kind, helpful, friendly and always smiling. I look forward to reading all about the fun and adventures our little boy has been on"

4. Samantha March 2022

"I have had two children attend Doodles and my third will start early next year. I have always had complete confidence that my children are well cared for and their development promoted whilst at Doodles. Communication is great and there is effort made to merge home and nursery learning. Staff are approachable and friendly and knowledgeable in child development and care."

5. Natalie March 2022

"My son was moved from another nursery which we had felt happy with to start in September. We always planned to move him to Doodles. He is so much happier and more confident at doodles. He didn't like being left at the other nursery and within 2 days was running into doodles not even saying goodbye. He tells everyone that he loves nursery and that he loves his 'teachers'. My older son attended doodles for 2 years and he loved it as well. He is autistic and doodles noticed it when he was 3 and tried to get him support and helped with his school transition. He settled so well in school and everything was ready because nursery made sure school was prepared. Both of my children have had amazing care at doodles and the staff are so dedicated and caring. They are the absolute best! They really care about your child and want the best for them. When you are upset they support you as well. It's a real home environment and feels like family. They also look after my youngest son's medical allergy needs really well and I don't even need to send his lunch in. He eats with his friends. It's brilliant. I could write 1,000 words of praise. The staff are amazing and they work with you to help with behaviour issues. It's really good to know that they have your back."

6. Hayley April 2022

"This nursery is a fantastic nursery; I have recently changed my daughter's nursery I have seen a massive change in my daughter she is a lot happier. All the staff are friendly and there to help when needs be."
